CFTN's Strategic Framework

ABOUT THE CFTN

The Canadian Fair Trade Network (CFTN) is a non-profit organization that aims to empower Canadians to take action and make a positive global impact. The CFTN's strategic plan encompasses four specific areas, or core pillars: the grassroots fair trade movement, organizational integrity, the fair trade business community, and federal policy change. Check out our **2020 Strategic Framework** to learn more.

IT'S TIME FOR SOMETHING NEW AND BETTER

Ending poverty, confronting climate change, and securing human rights for everyone are incredible challenges. But achieving these goals is possible. Canada has an opportunity to lead the way and initiate change. As individuals, we can learn about trade, alter our buying habits to reflect a global mindset, and seek fair trade products whenever possible. We can also work together and lobby our public institutions and municipal, provincial, and federal governments to adopt policies that can lead to a fair, sustainable world.

HOW WE DO IT

Together, joining the work already being done by community and campus groups, schools, public institutions, businesses, certifiers, and other key stakeholders, we can make *Fair Trade Magazine* a resource that unlocks the great potential of consumer buying power in alleviating global social inequalities.

Funds raised from advertising and distribution of *Fair Trade Magazine* help inform and support the extensive advocacy work being done in the interests of fair trade. This is good for both developing communities and the viability of ethical business in Canada.
